- **Now:** I am not afraid of lists, or even trees, but still don't feel confortable with DP yet. Need some quality time on couple of questions of that type. For Graphics as well. I will not touch them when I am headache, but will work on them when I have a mind.

- **undone:** binary tree Preorder Traversal - iterative method still thinking

19.2   Other things

- When thought about sth, cannot fall asleep, fall asleep at 8:00am, and waked up at 12:00, so today would be filled with tidious things;

- The haircurt store was closed during Christmas (I went to the store most probably on 12/26 on the afternoon after I met the two who were leaving for CA on 24th, but I don't really remember. The door was closed and the note on door said they would open today), and I called today and they did, so I spent $7+$1 tip and half an hour in store got my hair cut, but still spent 1 hours at home to redo it to thin the hair layers; Cut hair has nothing to do with love life, but rather that I don't want to waste time on the hair at this semster;

- try to organize previous courses contents, get the projects done better, and upload into github, and so far keep them secret until the time I need them in case in war;

- need to work on the appointment with professor web scheduling projects, because it is important, and sure will be beaten if I fail in case in war;

- target for fall asleep at 4:00am, but target for 8-10 easier algorithms problems be done before sleep; Time is so limited, I need change my schedule and use time more efficiently.

- am going to work on the rest 6 tonight, so that hopefully tomorrow I would be able to work on the new 10 questions;

    - **word ladder II**: spent hours on this one, but got really sick with it! I should have solved my problems gradually, like solve the clone graph to understand graph first before touch this one, but I will get this one done later when I have clear mind.
    - regular expression matching
    - divide two integers
    - clone graph
    - find peak element

26   12/23/2014, Tuesday

- Meet IPO staff this morning got coming semester plans clear at 8:30am in the morning;

- Will most probably meet some friend and have dinner together; changed to be **tomorrow noon**

- Hopefully by this morning's dirruption meeting staff, I could change back my regular schedule instead of 5am-13:30 day time sleeping, target for tonight fall asleep before 12:00am; fall asleep from 10:00-15:30, seems I will change my schedule back as expected tonight~!

- Will not work on Algorithms for today, but work on it hard tomorrow. I have my confidence that I can figure them out, and do great job summarize the questions during my Java round, no worries!

- so far Got 2 done: **158/169**

    - find peak element
    - maximal rectangle

27   12/24/2014, Wednesday

- 2:00(3:00am?)-11:00am, expect 2:00-9:00am schedule tonight;

- Worked on the following questions: **1/169**

    - divide two integers, just got the Java environment ready
    - regular expression matching: **working on it!**, require understanding and summarizing
